

## Declaration of Compliance with the Code for Professional Lobbying

The [PRCA Code of Professional Lobbying](#) sets out the requirements for PRCA members who conduct activities that sit under the definition of 'Professional Lobbying'.

Rule 4 states the following:

4. (a) Members must not engage any MP, Member of the House of Lords, any member of a Devolved Legislature or a Non-Executive Director of a Government Department to carry out Professional Lobbying.
- (b) Where a person who holds one or more of the roles listed above ("a Relevant Role") is employed or remunerated by a Member to provide services other than Professional Lobbying, or any person associated with the Member takes up any such role, the Member must promptly provide a written declaration of compliance to the PRCA Code for Professional in the terms required by it.

As a minimum, the declaration will require confirmation that the Member:

- i. has ensured that the person fully understands that they cannot engage in Professional Lobbying;
- ii. is satisfied that it will not thereby be in breach of this Code in particular, rule 5;
- iii. will declare on the Register any such Relevant Role in accordance with rule 7; and
- iv. will not make any use of any Confidential Information for the purposes of Professional Lobbying.

If you employ a person who falls under the definition of a '*relevant role*', please complete the following section along with name of the person and provide details of the role they will be employed to do and services they are employed to do outside of the definition of '*professional lobbying*'.

Hereby confirm that we have read the PRCA Code for Professional Lobbying and are satisfied that we understand the Code requirements and that the employment of  
does not breach the requirements of the Code.

Signed,

on
